

Attention residents in Buildings 1,2,3,4,5,6,7,8

Our insurance agent will be out here on Monday from 9am to 6pm to look for interior drywall damage from Hurricane Irma. Our agents name is Corey Osborne, he will have identification when he comes around and he will need to enter every unit for inspection and photograph and measure damaged drywall. He will be here from 9am to 6pm Monday October 9th. Please make arrangements for someone to be at your unit to let him in. If no one will be at the unit, please call the office and give us permission to enter your unit and bring us a key if we do not currently have one. If he cannot enter your unit, your drywall damage will not be part of the insurance claim and will therefore not be covered. Thank you in advance for your cooperation.
